Chulu East peak lies just above Manang and fits perfectly into the Annapurna Circuit, one of the best trekking trails in the world. This pleasant hike with an ascent east of Chulu is an opportunity that few can take advantage of. Our Chulu East Peak climbing package is an adventure that takes brave climbers to the summit of Chulu East 6,584 meters. The majestic peak offers a breathtaking view of the mountains of the Annapurna region. Step by step along the crest of snow, rocks, and ice that leads to the summit's pinnacle.

#### Chulu East Peak Climbing

- v You will enjoy the fantastic Annapurna circuit trekking route
- v It is one of the highest trekking peaks of Nepal
- v Lead by experienced climbing Sherpa guides
- v an excellent summit to experience alpine skills
- v Beautiful view of Annapurna II, III and IV, Dhaulagiri, Manaslu, and many more

Chulu East Peak is an ideal peak for those climbers who want to expand their climbing skills beyond other trekking peaks, including the Everest region. Chulu East Peak is one of the highest trekking peaks in the Manag Himal under the remote rains of the shadowy areas of the sprawling Annapurna Himalayas, which lies southeast of Chulu West and Manang. The German expedition made its first ascent in history through the northeast ridge, the summit of Chulu East, in 1955,

along with Chulu West, an integral part of the Manang Himal, which in turn belongs to the largest Damodar Himal.

The Chulu East Peak is a real technical expedition trekking summit in Nepal. A climbing period of 4 to 6 days from the base camp is required. There are many cracks between Chulu Far East and the east. It would be best if you had a lot of tight rope to the north ridge. You start your journey by car to Besishar, a traditional Annapurna trekking route, or fly to Hundy Airport and follow the Marsyandgi Khola through various landscapes and cultural villages from the subtropical country of the Gurung to the high Tibetan region of the Manang. Then the river of the Chhetaji Khola path Yak Kharka reaches 4000 m, the base camp Chulu east is very steep above the waterfall. You will have lunch at the Chulu East base camp, and you can climb the small mountain in its excellent condition and back to the camp. The base camp to the high camp also rises abruptly and reaches the rocky platform, and there is a small lake and near the lake is the high camp (5300 m) for two and a half hours. The next day it will be weak for the summit in the early morning. First, it's the difficult road and the steep and icy path, the best way to fasten the rope, that when it reaches the cold southwest and the right ridge leads to Chulu Far East. The east continues through a deep snow gap, and then you can build a camp (I) on the 5,500 m list.

Camp (II) tilts the crest, and you flow the north ridge from peak to peak. From the submit, you will have a beautiful view of South Annapurna and north of the mountains that define the edge of the vast Tibetan plateau. You can take pleasure in a spectacular view of Mount Annapurna II, III, IV, Mount Manaslu, Pisang Peak, Chulu, and the north side of the Himlung valley. The Chulu East Peak Expedition combines the best elements of a Himalayan expedition. The climbing tour to Chulu East Peak is strenuous and requires every participant to know alpine snow climbing skills well. It is a great way to explore Nepal's culture and climb two Himalayas' peaks most safely. After having a lot of experience in the Himalayas of Climbing Chulu East Peak, finish the trip early in the morning and at the end of the trip

Chulu East Peak climbing itinerary

### Day 01: Welcome in Kathmandu

Flying to Kathmandu is itself an exciting and unforgettable experience. On a clear day, you get a panoramic view of the high snow-capped peaks. After you complete the visa formalities, one of our representatives will greet you and will take you to your hotel with our vehicle. As soon as you arrive at the hotel, you will also be greeted by them. Afterward, you can relax in your room or take a walk through the city.

### Day 02: Drive to Dharapani by bus

Today, after breakfast, you will start early drive from Kathmandu to Dharapani. The drive heads west along the Trisuli River, then branches off the Pokhara Highway and heads north along the Marshyangdi River. You usually arrive in Besisahar in the early afternoon and then take a private jeep to reach Dharapani. You will follow the Marshyangdi Valley all day.

Meals included: Breakfast, lunch, and dinner

### Day 03: Trek from Dharapani to Chame

An uphill excursion takes you to the Chame village, famous for its hospitality and spectacular views. It is your first opportunity to enjoy panoramic views of Annapurna II, III, and Lamjung Himal.

Meals included: Breakfast, lunch, and dinner

### Day 04: Trek from Chame to Pisang

You will find that the environment changes as natural trees and plants become scarcer, as the terrain changes into a drier, desert-rich climate. From Chame, you reach of over 3,000 meters.

Meals included: Breakfast, lunch, and dinner

### Day 05: Trek from Pisang to Ngawal

Today, after breakfast, you start your walk early in the morning and walk 3 hours to get breathtaking views from Gyaru village. After spending an hour there, you will continue your trip to Ngawal and spend the night at the Ngawal Tea House.

Meals included: Breakfast, lunch, and dinner

Day 06: Free day at Ngawal

Ngawal is an ideal place to spend a day for many reasons. First, you will acclimatize to the altitude and save your energy to make your ascent to Chulu East Peak successful. Second, this is the part of the hike that you are closest to the mountains on. Most people climb the hill behind Nagwal to enjoy the magnificent view of the entire Annapurna Mountains and the vast ice waterfall that crashes and rumbles from Gangapurna. Sunset and sunrise over this natural amphitheater are one of the most beautiful views in the area.

Meals included: Breakfast, lunch, and dinner

Day 07: Trekking from Ngawal to Yak Kharka,

The path crosses the Cheggi Kholā and gradually rises to a peaceful apple field known for its stone huts and picturesque places. Pass a mighty waterfall fed by a high cliff in the distance before reaching a small meadow where local goats and yaks are fed. Finally, you get Yak Kharka, where you will make camp near an impressive mountain ridge that offers a view of the mighty mountains that tower over the valley.

Meals included: Breakfast, lunch, and dinner

Day 08: Trek from yak Kharka to the Chulu East Base Camp

After enjoying a sunrise view, you follow the winding path before the meadow meets a large rock formation. You will be camping near an impressive vantage point that looks out over the Annapurna giants rising above the clouds.

Meals included: Breakfast, lunch, and dinner

Day 09: free day in the Chulu East base camp

Today, you will rest all day to adjust to the elevation. You have a day off to relax, chat with the locals, pack your gear for the next day, or take a few short walks to enjoy the local scenery.

Meals included: Breakfast, lunch, and dinner

Day 10: Trek Base camp to Chulu East High Camp

Today, you walk to the high center early in the morning.

Meals included: Breakfast, lunch, and dinner

Day 11: Hike from high camp to camp 1

After packing and organizing your equipment, you move on the way and admire the rapidly changing landscape as you reach higher altitudes. Then you follow a steep path that leads to Camp I's strategic location, which gives the best access to the summit. You will set up camp here and enjoy a panoramic sunset view while the mountains reflect the hills' pink sunlight.

Meals included: Breakfast, lunch, and dinner

Day 12: way up to the east summit of Chulu and Descent to the base camp

Today, you take an easy day and return to the base camp. It makes you a long time to descend the slippery path safely. When you arrive at Camp I, you can rest or take a short walk to enjoy more of the local landscape.

Meals included: Breakfast, lunch, and dinner

Day 13: Extra day

Since we cannot guarantee a favorable climate for the day of the planned summit, we have prepared an additional day in the schedule if you cannot summit due to bad weather or other reasons. For example, if a person in the group with acclimatization problems is unable to reach the top of Chulu West Peak at the scheduled time, the extra day is helpful.

Meals included: Breakfast, lunch, and dinner

#### Day 14: Hike to Manang

You return to the original path that leads to Manang through various agricultural fields. Take the time to stop at the Braga Monastery and see the daily routine of the local monks. The monastery is famous for its beautiful views of the Annapurna region, and you will stop to enjoy the mountain's spiritual scene.

Meals included: Breakfast, lunch, and dinner

#### Day 15: Trek from Manang to Phedi

Today, you continue your journey through pastures to a settlement called Letdar, from where you have an excellent view of Chulu West. From here, the path follows the bank of Jarsang Khola, a tributary of the Marsyangdi, before it leads up the stony slopes over the river to Phedi.

Meals included: Breakfast, lunch, and dinner

#### Day 16: Trek from Phedi to Muktinath

Today, you have to start very early to cross the Thorung La Pass junction. The path becomes steep immediately after leaving the camp; the track is well defined. The slope flattens after about 4 hours of constant climbing. From the snow-capped mountains above to the Kali Gandaki valley's head below, you are surrounded by the brown and purple Mustang hills, which offer a unique perspective.

Meals included: Breakfast, lunch, and dinner

#### Day 17: Trek from Muktinath to Jomsom

Today, you will walk towards the Kali Gandaki Gorge, passing Kagbeni, before you reach Jomsom. You will stay here at night to learn more about the Tibetan people's local culture and customs as you explore this area.

Meals included: Breakfast, lunch, and dinner

#### Day 18: Flight to Pokhara

Early morning, you will return to Pokhara on the short flight of 35 minutes.

Meals included: Breakfast

Day 19: Drive or flight to Kathmandu from Pokhara

In the early morning, you leave the Pokhara tourist bus station and drive back to Kathmandu. After reaching Kathmandu, check-in at the hotel and rest.

Meals included: Breakfast

Day 20: Free day in Kathmandu

After breakfast, you have time to buy souvenirs and other independent activities.

Meals included: Breakfast

Day 21: Departure to your next destination from Kathmandu

According to your departure schedule, our support team will take you to the Kathmandu international airport for your flight to the next destination.

Meals included: breakfast

- v Flight cost Jomsom to Pokhara
- v All Government taxes and service charge
- v Certificates of Chul East Peak Climbing

#### What is excluded

- v Your health and travel insurance.
- v Nepal entry visa fee
- v Personal trekking and climbing equipment
- v Lunch and dinner are not including in Kathmandu and Pokhara
- v Evacuation of the emergency services
- v Tips for guide, Sherpa, and other trekking staff

#### Accommodation:

Your accommodation during the trip to Nepal is included in the cost of your package. We take care of the best possible accommodation during your stay. You will stay in a three-star hotel. In Kathmandu, before and after the trip.

During the trek, you will spend nights in a clean and standard tea lodge with good food. Usually have two narrow beds. Family accommodations are a great place to meet Nepalese people. In Nepalese culture, a guest is equal to God, and this has undoubtedly become even more real as the tourism industry has improved their chances of winning. You will be very welcome

We supply all camping equipment and meals during the climbing period. We provide three tasty and hygienic meals each day (Breakfast, lunch, and dinner with tea/coffee and boiled water). On Summit day, we offer a packing lunch with high-calorie foods that can quickly eat at high altitudes. In addition to your Sherpa guide, a team of porters carry camping equipment and set up tents and a well-trained chef.

Travel insurance:

Travel insurance for each itinerary of our company is a prerequisite for booking vacations. At a minimum, you must have emergency and repatriation insurance that must include the mountain rescue cost. Carefully review the terms and conditions of your insurers. In particular, you should ensure that the following are covered: 1) Activity (i.e., tourism, trekking or mountaineering) 2) Maximum altitude reached during trekking 3) Evacuation of the helicopter in an emergency. It would be best to understand that you will bear the cost of the evacuation and return procedures. It is your responsibility to take all costs associated with removal or medical treatment. You must be fully aware of travel insurance's effects and understand your policy's limitations and exclusions. Please note that in certain circumstances, our company guide can initiate helicopter rescue operations (or other necessary operations) in medical emergencies without first seeking approval from your insurance company.

Trekking and climbing guide and other staff arrangements

Experienced and professional mountaineers and guides lead your expeditions. You have climbed the mountain several times, with other crew members' support and logistics for the trip. Not only in terms of qualifications, but we also make sure that our managers can demonstrate proven success when climbing mountains at high altitudes. The number of guides depends on the team's size to maximize each climber's chances of reaching the top without compromising safety. Our expedition leaders are also experienced in treating altitude problems, including acute mountain sickness (AMS). Crew members are adept at building tents and campgrounds, trail snowmelt, cooking, and other daily necessities.

### Physical condition and experience requirements

The Chulu East peak is rated 2D in difficulty. It means that the technical challenge does not include very steep ice and climbing. Climbers should feel safe and comfortable when ascending or descending fixed ropes along the steep technical terrain. We also recommend that climbers already have experience in ice and ice climbing, significantly over 6,000 m. You require a high level of physical and mental fitness. Since the climbing experience will be exhausting, climbers with previous experience must be in good physical shape.

### Acclimatization

The route of the Chulu East is planned with a high level of knowledge of AMS. Climbing too high up too quickly leads to an illness that is serious enough to cause death. As much higher altitude, the oxygen levels less in the air. For example, at more than 5000 m altitudes, there is 50% less oxygen than at sea level. Therefore, your body needs more days to adapt to size with less oxygen. During this trip, we have separate reserve days for acclimatization only. Besides, the gradual walk will get used to the height better. There is also a different day reserved as an emergency if things do not go as planned.

Guests with known heart, lung, or blood disorders are advised to consult their doctor before traveling. Mild headaches, fever, loss of appetite, or stomach upset are symptoms of AMS. The company's travel routes were created with the most

excellent care for AMS. However, please know that some people are more vulnerable than others.

### Trekking day

Since you are in a remote rural area, you will experience the early bedtime and early morning hours. A typical day of trekking begins around 6 or 7 a.m. enjoy a hearty breakfast and get started. Take your bag with the personal items you need for the day. Walk at your own pace, enjoy the scenery, chat with the locals, and take pictures. The lunch break depends on the terrain and is prepared by our catering team. Usually stops after about 3 hours of walking for lunch. The lunchtime also helps with acclimatization. The goal would be to get to the next stop at sunset. After reaching the overnight point, the crew members arrange the tents. You can relax with a cup of tea or coffee or take a nice walk in the camp. Dinner would be ready around 7 p.m. Enjoy dinner and share the day's experiences with the team members.
